

Makeup Foundation

DUAL FOUNDATION OIL FREE

1. A velvety oil-free powder foundation may be applied wet or dry to produce a smooth matte finish.
2. Sponge included. Apply with a dry sponge, a damp sponge for a dewy finish or a kabuki brush for a smooth matte finish.
3. Spray a light mist of Botanical Herbal Mist to set the make-up.
4. A high quality foundation that provides excellent coverage.
5. May be used as a finishing powder over liquid foundation to provide an oil-free, long lasting, velvet finish.

Formulated with many natural ingredients:

1. DIMETHICONE - helps to retain moisture.
2. ALOE VERA - freeze dried upon harvesting to retain freshness, preserve moisture and provides a soothing effect.
3. LECITHIN - a natural anti-oxidant.
4. SILICA - a natural ingredient that provides a water resistant effect.
5. SORBITAN SESQUIOLEATE - an emulsifier derived from berries, seaweed and algae.
6. TITANIUM DIOXIDE - a sunscreen that filters UV rays and has deflective properties.

- Packaging:**
1. Packaged in a mirrored compact with aerated section for sponge.
 2. Oil-Free and water resistant.

FIRST BASE FOUNDATION

1. This foundation primer is a MUST to provide a flawless finish to the face.
2. Helps to seal and protect the skin's moisture balance.
3. Excellent to use under our Dual Mineral Foundation.
4. Apply one or two drops on the face. Allow to absorb and dry before applying foundation.
5. Delivers oil-free moisture enhancers to all types of skin leaving skin hydrated for hours.
6. Contains lipids that are important for the healthy structure and function of the corneum layer.
7. Leaves makeup looking fresh and color true all day. Prevent dryness and flaking on the skin.
8. A perfect base for a flawless makeup application.

Formulated with many natural ingredients:

SPHINGOLIPIDS - appear to work with the cellular system in providing a restorative effect on a damaged or disturbed corneum layer.

CYCLOMETHICONE - provides a silky, smooth feel to this product, is a noncomedogenic emollient in the form of silicone that can deliver active ingredient.

DIMETHICONE - a form of silicone that gives products slip and feels smooth on the skin.

CERAMIDES - form a protective barrier and reduce the natural water loss.

They repair the corneum layer in cases of dry skin and improve skin by hydration.

DUAL FOUNDATION OIL FREE

1. An oil-free foundation for women of all ages and skin types who prefer an easy-to-apply lightweight foundation that provides a smooth even coverage.

2. Excellent choice for teenagers as it provides a very natural matte finish.
